**AUDITOR'S REPORT.**

I have examined the Treasurer's Books and find the accounts to be correctly cast. There is \$294.29 in his hands as shown by his books.

The selectmen's books and accounts for the past year I find correct. There is a voucher for every order drawn, and each order agrees with the bill for which it was given.

Miss Colliard did most excellent work in this school. We consider her a fine teacher.

**SPRING TERM.**—Length of school in days, 40; whole number of scholars attending, 42; average number, 35; wages of teacher per week, \$5.00.

FALL TERM.—Length of school in days, 50; whole number of scholars attending, 40; average number, 32; wages of teacher per week, \$5.50.

WINTER TERM.—Winter term is now in session. Miss Lizzie L. Haley, of Winterport, taught the spring and fall terms, and is now teaching the winter term. Examination showed that good, thorough work had been done in the spring and fall terms, and that Miss Haley had attended strictly to business as every teacher should. We were highly pleased with her work in the schools. The same thorough work is being done in the winter term.

#### HIGH SCHOOL.

SPRING TERM.—Length of school in days, 40: whole number of scholars attending, 35; average number, 33; wages of teacher per week, \$5.50.

Mrs. C. M. H. Larrabee, of Frankfort, taught the spring term. Mrs. L. being somewhat indisposed, the first part of the term, did not give as good satisfaction as she might otherwise have done. The scholars made very fair advance in their studies.

FALL TERM.—Length of school in days, 50; whole number of scholars attending, 25; average number, 22; wages of teacher per week, \$5.50.

WINTER TERM.—Winter term now in session. Miss Carrie E. Alden, of Hampden, taught the fall term and is now teaching the winter term.

Miss Alden is a Normal School graduate, and a first class teacher. She is very popular in this district. She did most excellent work in the fall, and is having the same marked success in the winter term.

Miss D. has taught several terms of school in this district before the present school year. She has succeeded in doing most excellent work in this school, and has proved herself beyond a doubt to be one of the best of teachers.

Mrs. Perkins is a good disciplinarian, and a thorough scholar. We were well satisfied with the work that she did in this school.

#### FALL TERM.—MISS FANNIE E. SINNOTT, of Winterport, *Teacher*.

Length of school in days, 30; whole number of scholars attending, 23; average number, 20; wages of teacher per week, \$3.00.

Miss Sinnott labored hard in this school and was fairly successful. In an average school we think Miss Sinnott will do most excellent work.

#### WINTER TERM.—MR. W. P. CLARKE, of Monroe, *Teacher*.

Length of school in days, 55; whole number of scholars attending, 21; average number, 15; wages of teacher per month, \$20.00.

Mr. Clarke was rather young to attempt a school of this kind; but if he had had the sympathy of both parents and pupils he could have done much better work than he did; as it was however we think the scholars who attended regularly and were attentive to their books made good progress in their studies. Although this is not a bad school, still it requires an able teacher to do fair work.

### DISTRICT No. 6, WHITE'S CORNER.

Amount of money appropriated, \$137.00.

Number of scholars returned, 15.

#### SPRING TERM.—MISS MAY CHASE, Winterport, *Teacher*.

Length of school in days, 40; whole number of scholars attending, 11; average number, 8; wages of teacher per week, \$2.50.

Miss White is a very fine scholar. This was her first term of teaching, but her work showed that she hadn't missed her calling, and was destined with experience to become a fine teacher. The scholars made rapid advancement under her tuition.

FALL TERM.—MISS GUSTA M. TASKER, of Monroe, *Teacher*.

Length of school in days, 30; whole number of scholars attending, 9; average number, 8; wages of teacher per week, \$3.00.

Miss Tasker did very nicely in this school. The scholars seemed to like Miss Tasker, and made good advancement.

Length of school in days, 40; whole number of scholars attending, 7; average number, 6; wages of teacher per week, \$2.50.

**FALL TERM.**—MISS F. M. DUNBAR, of Winterport, *Teacher*.

Length of school in days, 40; whole number of scholars attending, 6; average number, 4; wages of teacher per week, \$2.50.

This was Miss Dunbar's first term of teaching, and she was successful. We have not known of any dissatisfaction.

**WINTER TERM.**—MR. F. M. PORTER, of Winterport, *Teacher*.

The school is now in session. Mr. P. is a very fine scholar, and is doing most excellent work.

## DISTRICT No. 9, PLUMMER MILLS.

FRED PARKER, *Agent*.

Amount of money appropriated, \$155.00.

Number of scholars returned, 25.

**SPRING TERM.**—Length of school in days, 40; whole number of scholars attending, 15; average number, 13; wages of teacher per week, \$3.00.

**FALL TERM.**—Length of school in days, 40; whole number of scholars attending, 23; average number, 18; wages of teacher per week, \$3.00.

Miss Lizzie M. Palmer, of Monroe, taught both terms. The spring term we considered successful. But in the fall some of the larger scholars were disposed to be somewhat rude: therefore the fall term was not as satisfactory as it might otherwise have been.

**WINTER TERM.**—MR. F. S. DOLLIFF, of Monroe, *Teacher*.

Length of school in days, 50; whole number of scholars attending, 15; average number, 12; wages of teacher per month, \$—

Mr. Doliff is a teacher of undoubted ability and experience. We liked Mr. D. much as a teacher, and he, as in previous terms, showed himself to be one of the very best of teachers.

In closing, we would like to impress on the minds of our citizens the necessity of visiting their schools. Parents often complain of the school or teacher when they know nothing of either. Visit your schools, encourage your teachers, and you will have less cause for complaint.

We would say to the School Agents, that we have a large number of very fine teachers in town that are well qualified to do good work, and we would recommend that they be employed before going out of town for teachers.

In conclusion I will say that we have had forty-nine terms of school (counting those now in session) the past year; forty-five of them have been first class in every respect; the other four will average as fair schools. I think I may safely say that the schools, as a whole, have been very satisfactory. Yet I do not mean to say there is no chance for improvement.
